

## Skill /Job Recommender Application

literature survey

abstract:

Students will have the skill but they are unable to get the desired job for skills they have. We are proposing an application which will help the students to give suggestions on the jobs based on the skills. Students can also enquire about skills that are required for their desired job.

Hardware requirements:

- 1.Windows (minimum 10), Mac OS, Ubuntu
- 2.Ram - 4GB ( minimum)
- 3.Hard disk - 256GB (minimum)
- 4.Processor - Intel i3 (minimum), Mac M1

Software requirements:

- 1.Anaconda Navigator
- 1 Spyder / VS Code / Pycharm
- 1 Docker Installation
